

OmniMarket Global Hub

Product Requirements Document (PRD) v1.0

The Ultimate Hybrid E-Commerce Ecosystem

1. Executive Summary

OmniMarket is a next-generation e-commerce platform designed to merge the logistical reliability and customer service of **Amazon**, the massive direct-from-factory wholesale variety of **AliExpress**, and the gamified, social-driven low-cost model of **Temu**. The platform aims to provide a "one-stop-shop" for global consumers, offering everything from premium brand-name goods to ultra-affordable manufacturer-direct items.

2. Core Functional Requirements

2.1 Hybrid Catalog System

- **Global Search:** Unified search engine using AI to categorize "Premium" (Amazon-style) vs "Global Direct" (AliExpress/Temu-style) products.
- **Dynamic Pricing:** Real-time currency conversion and "Group Buying" discounts (Temu style).
- **Multi-tier Fulfillment:** Selection between "Express Prime" (1-2 day shipping) and "Economic Saver" (7-15 day global shipping).

2.2 Gamification & Social Commerce

- **Daily Reward Hub:** Spin-to-win, daily check-ins, and mini-games to earn "Omni-Coins."
- **Social Team Buying:** Ability to share a product link; if 5 friends join, the price drops by 40%.

- **Affiliate Influencer Portal:** Seamless tools for users to review products and earn commission on sales.

2.3 Advanced Logistics & Tracking

- **Universal Tracking:** Real-time map view for local deliveries and maritime/air tracking for international orders.
- **Consolidated Shipping:** Intelligent warehousing that bundles small items from different sellers into one box to reduce waste and shipping costs.

3. Mobile App Specific Features

- **Image/Visual Search:** Take a photo of any item in the real world to find it in the OmniMarket catalog.
- **Live Stream Shopping:** Real-time seller broadcasts with instant "click-to-buy" overlays.
- **Augmented Reality (AR):** "View in Room" for furniture and "Virtual Try-on" for apparel and makeup.
- **Push-Driven Scarcity:** Flash-sale notifications and "Price Drop" alerts for wishlisted items.

4. User Personas & List

User Type	Description	Primary Need
The Value Hunter	Budget-conscious, willing to wait for shipping.	Lowest possible price, coupons, and games.
The Prime Professional	Busy, values time over small price differences.	Next-day delivery, 1-click checkout, easy returns.
The Drop-shipper	Business user buying in bulk to resell.	Wholesale pricing, API integration, bulk logistics.
The Global Merchant	Sellers from China, USA, and Europe.	Easy listing tools, international tax automation.

5. The User Experience (UX) Journey

User Journey A: The "Temu-Style" Gamified Flow

- Entry:** User opens the app and is greeted by a "Daily Treasure Chest" animation.
- Engagement:** Plays a 30-second mini-game to win a 90% discount on a trending gadget.
- Conversion:** Adds gadget to cart; app suggests "Add \$5 more for Free Global Shipping."
- Post-Purchase:** User shares the purchase on social media to unlock further tracking updates.

User Journey B: The "Amazon-Style" Efficiency Flow

1. **Entry:** User types "Organic Coffee Pods" into the search bar.
2. **Engagement:** Filters by "Omni-Express" (1-day delivery).
3. **Conversion:** Uses "Buy Now" button with pre-saved biometrics (FaceID/Fingerprint).
4. **Post-Purchase:** Receives a photo notification of the package on their doorstep within 24 hours.

User Journey C: The "AliExpress-Style" Discovery Flow

1. **Entry:** User browses the "Global Discovery" feed containing unique items from around the world.
2. **Engagement:** Watches a 15-second video of a manufacturer demonstrating a foldable solar panel.
3. **Conversion:** Negotiates a slightly lower price via the "Chat with Seller" real-time translation tool.
4. **Post-Purchase:** Tracks the item as it moves through international customs via the in-app map.

6. Technical Constraints & Security

- **AI-Powered Translation:** Real-time translation for customer-to-seller chat and product reviews.
- **Fraud Detection:** Amazon-grade machine learning to detect fake reviews and fraudulent sellers.
- **Payment Gateway:** Integration with Stripe, PayPal, WeChat Pay, Alipay, and Cryptocurrency.
